EXECUTIVE SUMMARY

A TOTALLY TRANSACTIONAL PLATFORM IN THE INVESTMENTS AND DEVELOPMENT OF SMALL BUSINESSES.

THE SOLUTION.

The goal set at ReCalling Investments Pay Uban.com (RipURBAN.com) is in the building of a stronger U.S. Office of Government Contracting and Business Development (OGCBD) support of small business approval ratings; where the Office of Field Operations (OFOs') 68 local district offices outreach of small disadvantaged business are able to benefit RipURBAN.com's CEO2CEO Accountholders. And with the Office of Entrepreneurial Development (OED) support of small businesses through its Resource Partner network consisting of Small Business Development Centers, Women's Business Centers, SCORE mentorship networks, and the Community Navigator Hub-and-Spoke network: RipURBAN.com's CEO2CEO Service Plans Accounts, and its SBC Readiness & Preparedness 90-day onboarding process is key too connecting the very small business (VSBs) to the economy through government and private business opportunities.

THE OPPORTUNITY.

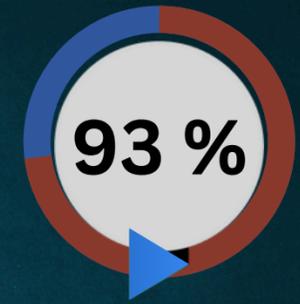

RipURBAN.com's three (3) tier system (Internet, Intranet and Extranet) driven by Artificial Intelligence (AI), etc. Our Adopt A Neighborhood Initiative (AANI) support of the management of 500 CEO2CEO Service Plans Accounts, and a 50,000 Consumers Investments / Global Retailer Investors Profile (CiGRIP) Distribution Channel: **THE VALUE** - AI-algorithms, CEO2CEO Service Plans Accounts and a holdings-companies service operation's investment benefit in the development of the CEO2CEO Account-holder at RipURBAN.com.... A TRANSACTIONAL INVESTMENT & DEVELOPMENT OF THE CEO, is "priority."

SMALLEST BUSINESS COMMERCIALIZATION. **SBC**

THE PROBLEM.

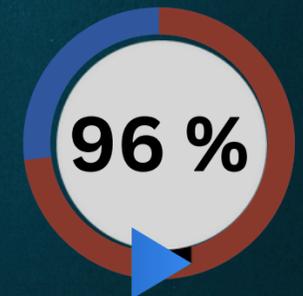

Minority Business Enterprises find that doing business in an open market, as a competitive marketplace that they're able and capable of competing in?

The Small Business Landscape Analysis (SBLA) annual assessment highlights the performance of small businesses (SBs) that provide services and products to the Federal Government. Where the Federal Procurement Data System (FPDS) analysis is measured as the proportion of federal procurement obligations ... Hereunder, where-at about 87% of very small businesses failure to meet the small business commercialization (SBC) requirements ... the Federal Contracting Utilization by Small Disadvantaged Businesses, suffers losses in mutual benefits on an annual basis.

REGISTERED AFRICAN AMERICAN BUSINESS ENTERPRISES ARE EARNING LESS-THAN ONE-MILLION-DOLLARS ANNUALLY.

The Bureau of Labor Statistics (BLS) and the Census Bureau established-level productivity database, its Annual Survey on Micro-productivity Project-reporting: The Longitudinal Business Database (LBD) collects data annually where the Bureau's Business Register provides high-quality longitudinal links and information on the universe of business for the collective business society benefit.

Registered African American Business Enterprises are earning less-than one-million-dollars annually; where found operating outside of (i) a value supply chain distribution channel, (ii) a holdings-companies service operation(s). And (iii), deemed unable to qualify for SBC Investment Opportunities as an End-Goal to grow their business within the competitive marketplace.

Adopt A Neighborhood * ThinkingCapProject.com

83%

▶ Great Recession-GDP declined by 4.3 percent, and the unemployment rate approached 10 percent.

RIP
URBAN

Adopt A Neighborhood States.

The harsh realities of COVID-19 were superimposed upon generational systems of disadvantage. The deep-seated history of marginalization and discrimination against Black Americans underlie inequities in education, employment, housing, nutrition, credit markets, health care, and the carceral system.

The COVID-19 pandemic took advantage of these cross-sectoral inequities to hamper health promoting resilience in the face of the global pandemic.
